NEAC # 7909/80

CENTRAL INTELLIGENCE AGENCY  
WASHINGTON, D.C. 20505

December 4, 1980

Mrs. Barbara W. Morlet  
Office of Long-Range Assessments  
and Research  
Department of State  
Room 6842 New State  
Washington, D.C. 20520

Dear Mrs. Morlet:

In response to your request for FY 1980 funding information on Government-Sponsored Research on Foreign Affairs:

25X1 The dollar cost of research projects for the Agency (all in the National Foreign Assessment Center) for FY 1980 was approximately [redacted] These projects, with one exception, have been reported quarterly in compliance with Foreign Affairs Research reporting requirements. The one exception--included in the funding cost above--was inadvertently omitted from our last quarterly report but will be included in our report for the first quarter of FY 1981.

As the dollar cost figure for research contracts let by the Central Intelligence Agency is classified, I assume you will be unable to include the figure in any funding table. If you are unable to use the cost figures, presumably you will not need any description of our research program. Please let me know if I am incorrect on the latter assumption.

Sincerely,

[redacted]

Associate Coordinator for  
Academic Relations and  
External Analytical Support
